Clean River Recycling Solutions
ONTARIO, CA | 1-888-628-5756
WWW.CLEANRIVER.COM

At CleanRiver, we’ve moved beyond the familiar ‘reduce, reuse, recycle’ to shift towards a more environmentally sustainable approach called the 3C’s of recycling: Culture, Communication, Collection. Partnering with CleanRiver and practicing the 3C’s make it easy for you to do the right thing. We’ll supply much more than our innovative recycling containers made of the highest possible recycled content. We’ll share our expertise gained from 25 years of experience, excite you with our passion about making the planet a more sustainable place, and together, we’ll help ensure that your program is a success.

Cornerstone – A Tetra Tech Company
MIDDLETOWN, NY | 845-695-0238
WWW.CORNERSTONEEG.COM

Cornerstone Environmental Group, LLC is an engineering consulting and field service firm dedicated to providing services to the solid waste industry and commercial, industrial, and agricultural clients throughout the nation. WATERBURY, CT | 203-597-8833
WWW.ECONTAINERS.COM
East Coast Containers is a manufacturer of recycling and waste handling equipment for recycling centers and transfer stations. We produce a range of products from like our own self-contained compactors, stationary compactors, receiver boxes, open-tops, close-tops and recycling units.

Give Your Stuff Away Day
ROCHESTER, NY | 585-749-5107
WWW.GIVEYOURSTUFFAWAY.COM
“Give Your Stuff Away Day” is an emerging event that promotes recycling, reuse, and reduction. It is held in May and September of each year. On those days, households are encouraged to donate items to others by placing them on the curb for others to take. Founded by Mike Morone, the event has gained traction in various areas of the US and Canada. Most recently, media in Winnipeg, Canada estimate that their Fall 2018 event generated $5 million in goods given away.

Helpsy
WHITE PLAINS, NY | 856-397-9359
WWW.HELPSY.CO
HELPSY is a for-profit B Corp with an environmental mission to radically change the way people think about clothing recycling. We make reusing and recycling your clothes and shoes more convenient and easy than ever. The largest clothing collector in the Northeast US, with over 1,800 collection containers and growing, we collected over 25 million pounds of clothes in last year.

Nova Products
ONTARIO, CA | 289-321-1106
WWW.NOVAPRODUCTS.CA
Since 1976 Peninsula Plastic Ltd has been injection molding plastic components. Strategically located in Fort Erie ON-1 mile from Buffalo, NY- we offer shipping terms out of Canada or the United States. Peninsula Plastics Ltd has custom designed curbside recycling and organics collection containers to make waste diversion easier for municipalities and residents. Our curbside recycle bins (16 gallon and 22 gallon) and organics collection containers (2 gallon and 13 gallon) are the only ones in the industry that have customs lids available to suit any program. Ergonomic designs make them easier to use and more resistant to wear. Competitive pricing helps reduce program costs and provides solutions for any budget.

New York State Association for Reduction, Reuse & Recycling
ALBANY, NY | 518-482-7395
WWW.NYSAR3.ORG
NYSAR™ is an extensive network of recycling and materials management professionals dedicated to benefiting the economy, environment and society by reducing waste and promoting sustainable materials management in New York State. Our mission is to provide statewide leadership on waste reduction, reuse and recycling issues and practices to improve the environment. We welcome members from all backgrounds and regions of New York and beyond!
NYS Department of Environmental Conservation

ALBANY, NY | 518-402-8706
WWW.DEC.NY.GOV

The New York State Department of Environmental Conservation’s mission is to conserve, improve and protect New York’s natural resources and environment and to prevent, abate and control water, land and air pollution, in order to enhance the health, safety and welfare of the people of the state and their overall economic and social well-being. DEC’s goal is to achieve this mission through the simultaneous pursuit of environmental quality, public health, economic prosperity and social well-being, including environmental justice and the empowerment of individuals to participate in environmental decisions that affect their lives.

One World Center Clothes Collection

COLONIE, NY | 518-701-1946
WWW.ONEWORLDCENTER.ORG

One World Center Clothes Collection works to promote sustainability through recycling and reuse of clothes and shoes for the support of local and international development. One World Center wants to engage many people in the fight for a more humanized society for everyone. When you donate your unwanted clothes and shoes to one of our clothing bins, you are helping to create development and protect the environment.

ORBIS

OCONOMOWOC, WI | 416-745-7107
WWW.ORBISCORPORATION.COM

Choose from Norseman Environmental brand of curbside recycling boxes, organi recycling bins, the SYSTERN Rain Barrel and the Earth Machine Backyard Compost Bin to improve recycling rates, conserve natural resources and help the environment. The Norseman brand of products, now from ORBIS Corporation, has been preferred by municipalities and haulers in the United States, Canada and beyond for decades. Norseman Environmental understands how recycling and diversion programs work. Our team of experts work with municipalities and haulers to identify recycling/diversion goals and assist in planning curbside recycling or diversion programs to meet the needs of residents. With value-added educational programming, community outreach and environmental expertise, the Norseman Environmental group helps communities meet their waste diversion goals while improving the health of the planet we all care about.

Pollution Prevention Institute

ROCHESTER, NY | 585-475-7039
WWW.RIT.EDU/AFFILIATE/NYSP2I

NYS Pollution Prevention Institute (NYSP2I) is sponsored by the New York State Department of Environmental Conservation and led by the Golisano Institute for Sustainability at Rochester Institute of Technology (RIT), and is a partnership between RIT, Clarkson University, Rensselaer Polytechnic Institute, the State University of New York at Buffalo and the New York Manufacturing Extension Partnership. NYSP2I’s goal is to make the state more sustainable for workers, the public, the environment and the economy through pollution prevention. Pollution prevention is reducing or eliminating waste at the source by modifying production processes, promoting the use of non-toxic or less-toxic substances, implementing conservation techniques and reusing materials rather than putting them into the waste stream.

Recycle Coach

ONTARIO, CA | 416-423-3203
WWW.SOLUTIONS.RECYCLECOACH.COM

Recycle Coach helps communities work together to waste less and recycle more. We make localized solid waste information more accessible to residents, creating intuitive digital tools and print solutions that expand your program reach and lower recycling barriers. When recycling is easy, people are happy to do it. And they’re happier with the service you’re delivering, too. Our goal is to be in every city, on every device, empowering programs everywhere to perform better. We’re recycling simplified.

The Recycling Partnership

FALLS CHURCH, VA | 817-287-8388
WWW.RECYCLINGPARTNERSHIP.ORG

As a leading, national force for improving recycling, The Recycling Partnership puts private dollars to work in communities because we know that when we invest in a system to protect resources, empower sustainable action and unlock opportunity, everyone wins. We drive measurable sustainability through grants, technical assistance and tools, research, measurement, best practices, and partnerships.
Schenectady County Recycles is a collaborative partnership between Schenectady County and Cornell Cooperative Extension of Schenectady County tasked with performing educational outreach initiatives and community engagement programming for youth and adults in Schenectady County communities, with the goals of reducing the amount of municipal solid waste being sent to landfills while increasing material recovery by promoting single stream recycling and other forms of waste reduction.

Sustainable Materials Management works to repair and protect local soil, water, and air through organics composting. We turn your discarded food scraps into a safe and nutritious soil amendment for home, commercial and agricultural use.

The SU-CSCS/EFC operates at the intersection of science, policy, and communications. We build capacity by providing technical assistance and tools to make informed decisions that support community resiliency. Founded in 1993, the Syracuse University Environmental Finance Center (SU-EFC) developed programs focused on leadership, conflict resolution, governance, and policy. The SU-EFC is also part of the national Environmental Finance Center Network, a collaboration of all 10 regional EFCs. Established in 2010, the Syracuse University Center for Sustainable Community Solutions was created to provide a broader capacity for programs and funding.

WeCare Denali

As a premier recycler of organic residuals throughout the US, Denali Water Solutions proudly manufactures a line of products including compost, soil amendments, and custom engineered soils. Our widely recognized WeCare brand products are sold within the public and private sectors. Our company and products are known for quality, consistency, and value throughout the landscape, construction, and agricultural industries.

Vantage

Vantage Equipment handles equipment used in recycling yards, from excavators, to wheel Loaders, to trommel screens and grinding equipment. We are able to assist with all aspects of a recycling yard, from specing equipment, to help with securing grant monies, to assistance with day-to-day operations.
